IO1 Assessment

Daniela Jamin, Christina Padberg, Heino Stöver

Frankfurt University of Applied Sciences

ISFF

Index

1. IO1/A1 Development of an Assessment Matrix (M1-M2)
2. IO1/A2 Data Collection (M3-M8)
3. IO1/A3 Expert Consultation
4. Temporary structure for the Assessment Report

IO1/A1 Development of an Assessment Matrix (M1-M2)

- ❑ Matrix developed
- ❑ Corrected and feedbacked by BETRAD project partners
- ❑ Matrix reviewed again by Frankfurt UAS

IO1/A2 Data Collection (M3-M8)

Current Status:

- Matrix has been sent to the EMCDDA Reitox Network to fill in the information on european level (19th May 2017)
- Deadline 30th July 2017
- So far we have reactions from Hungary, Denmark, Netherlands (30)

→ Some of them are not ready to fill in the Matrix (again) and refer to existing reports!

- We have to collect the information on our own (work in progress)
- Problems: The reports don't contain the data about 40+ users

IO1/A2 Data Collection (M3-M8)

Current Status:

- Still pending because the data has just been raised

IO1/A3 Expert Consultation

- ❑ Interviewing of at least 3 european experts
- ❑ Still pending because the data has just been raised

Temporary structure for the Assessment Report

- Introduction + purpose of the report
- Demographical situation on european level
 - Problem opioid use
 - Problem use of other illicit drugs
- Legal, health and social system on european level
 - Substitution treatment
 - Specific services and methods for aging drug user
 - Specific policies for aging drug user
 - Planned development of specific policies or services
- Recommendations
- Conclusion
